

# NORTH MIAMI, FLORIDA COMMUNITY REPORT

## OVERVIEW

The South Florida Disaster Resilience Initiative (FL DRI) is a community-based initiative building resilience through three major activities: training, assessments and community forums.

Upon completion of a leadership and technical skills training program, Community Captains led a series of activities in selected communities located in Broward or Miami-Dade county. Community captains lived, worked, or worshiped in the community they served and led the following activities:

- Community Vulnerability Assessment to identify the areas in the community that are the most vulnerable
- Housing and Emergency Shelter Survey to understand residents access to information and level of preparedness during hurricane Irma and for future hurricanes
- Skills and Equipment Inventory to build a network of skills and equipment within the community for future natural disasters

The data gathered by the Community Captains provided a snapshot of the present vulnerability state of their community, and high priority areas requiring urgent attention.

**Population**  
62,158

**Household**  
18,394

**Median Household Income**  
\$37.5K

**Education**  
24.8% No H.S. Diploma  
48.4% H.S. Diploma  
26.9% Higher Degree

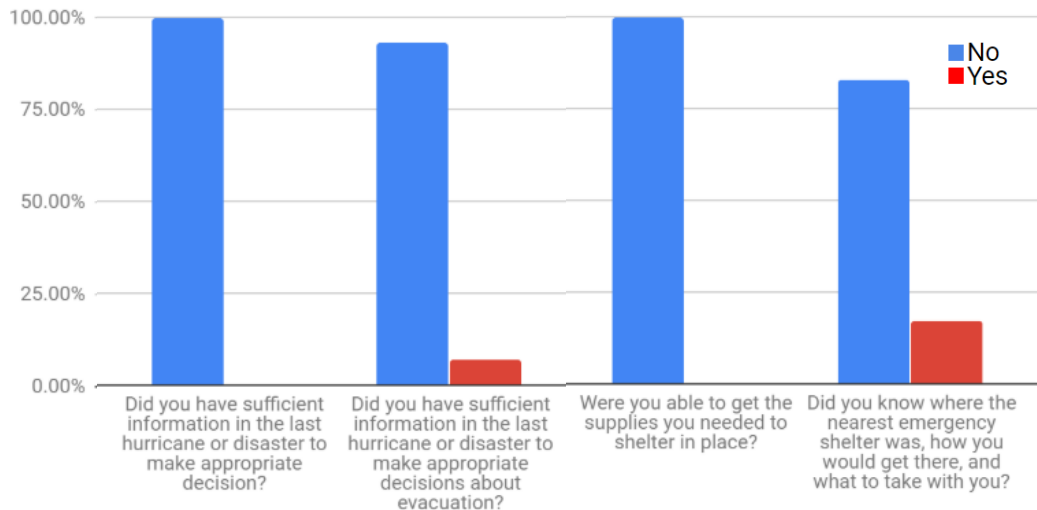

# FINDINGS

## COMMUNITY VULNERABILITY ASSESSMENT

26 functions\* were evaluated on a 7-rating scale to determine a vulnerable a function was in the event of a category 4 or 5 hurricane, or based on the most recent hurricane experience. The lowest rating (1) indicated the highest vulnerability of a function. The highest rating (7) indicated that a function was resilient and sustainable.

**Functions with rating <2:** *Renewable Energy, Energy for Cooking & Lighting, and Water Infrastructure.*

## COMMUNITY PREPAREDNESS STATE

## REPORTED DAMAGE POST-HURRICANE IRMA

## HOUSING CATEGORY

## TOP PRIORITIES IDENTIFIED BY COMMUNITY FOR ACTION

- 1) Communication Infrastructure/Information Access/Education
- 2) Water and Food Security

## \* LIST OF 26 FUNCTIONS

Water Infrastructure  
 Food Security  
 Agricultural Production Scale  
 Housing Safety  
 Environmental Health & Safety  
 Health Services  
 Management & Governance

Shelter & Evacuation Systems  
 Psycho-social Resilience  
 Supply Chain Logistics  
 Energy - Temp Management  
 Energy - Lighting & Cooking  
 Renewable vs. Grid Energy  
 Emergency Management

Education System  
 Hygiene & Prevention  
 Communications Systems  
 Sewer Septic Systems  
 Solid Waste Management  
 Transportation

Community Security  
 Community Commons Areas Availability  
 Social Services  
 Value Chains  
 Climate Threat Mitigation & Transformation
